Danielle joined Spectrum in 2017. She recruits executives within Spectrum's core verticals, namely Business Services, Healthcare, and Technology. Previously, she was a senior associate at Accelent Inc., a New York City-based retained executive search firm, focused on early through mature stage software, cyber security, digital media, e-commerce, and financial services clients. Prior to this, she served as a corporate recruiter at One Zero Capital and Bridgewater Associates, one of the world's largest hedge funds. Her experience with those investors, coupled with Accelent's entrepreneurial client base, has proven to be invaluable to Spectrum's private equity clients.

After receiving her undergraduate and masters degrees with honors from New York University, Danielle began her career as a professional counselor. The client-centered foundations in which she practiced in this capacity are a significant contributor to her work over the past 5+ years in executive search and human resources, where she has concentrated on recruiting top executive-level talent. Danielle's high bar for achievement and her drive to succeed, along with the personalized attention she bestows, are highly valued by those brands she represents.

Its comes as no surprise, given her high energy level, that competitive running and avid hiking are two of her passions.
